Decision

Decision made by	the National VET Regulator
Decision	Cancel, under sections 56(1)(a) and 58(1) of the <i>National Vocational Education and Training Regulator Act 2011</i> , the VET qualification(s) and/or statement(s) of attainment issued to you by Unique College of Technology UCT Pty Ltd RTO 91358 (see Annexure A for Qualifications and Statements of Attainment).

Reasons for decision

1. This statement sets out the reasons for the decision ASQA has made, as detailed above.
2. I am satisfied on reasonable grounds that:
 - a. it is appropriate to cancel your qualification(s) and/or statement(s) of attainment because Unique College of Technology did not provide, or arrange for another person to provide, all or part of the assessment necessary for you to achieve the learning outcomes or competencies required.
 - b. there are no exceptional circumstances making it appropriate for me to exercise my discretion to not cancel your qualification(s) and/or statement(s) of attainment.

Materials relied upon

3. In making its decision, ASQA has considered:
 - a. ASQA's decision to cancel/suspend the registration of Unique College of Technology
 - b. our assessment of your response to the notice of intent to cancel your qualification.

Findings

4. ASQA conducted a compliance audit in relation to Unique College of Technology. This audit identified serious and systemic non-compliance with the provider's regulatory obligations that had the impact that students did not receive training that would have equipped them with the skills and competencies required by the training package. The compliance audit also identified that Unique College of Technology issued qualifications to students without conducting adequate assessment to ensure students had the required skills and competencies as required by the training package. On this basis, ASQA took action to cancel Unique College of Technology's registration.
5. Based on findings from the compliance investigation, ASQA is satisfied that the provider did not provide adequate training and assessment to students on the basis of the following findings. The provider did not:
 - a. implement training and assessment strategies and practices consistent with the requirements of the relevant training packages,
 - b. implement an assessment system, including for Recognition of Prior Learning (RPL), that ensured assessment complied with the requirements of the relevant training packages and the Principles of Assessment and Rules of Evidence,
 - c. demonstrate that it had access to appropriately qualified trainers and assessors to deliver and assess the training products prior to issuing qualifications or statements of attainment,
 - d. maintain effective oversight or control of third parties involved in student enrolment, training facilitation, assessment-related processes, or processes leading to the issuing of qualification(s) and statement(s) of attainment.
6. ASQA is satisfied that the provider did not provide adequate training and assessment to students during the period 1 June 2022 to 2 September 2025. ASQA is satisfied this is the relevant period because:
 - a. during the compliance investigation ASQA contacted 2,408 former students enrolled across 2023 and 2024. Of the 36 respondents, many described inconsistent delivery practices, including recognition of prior learning (RPL) facilitated by third-party brokers.
 - b. a request for information sent to 4,499 former students who enrolled after 1 June 2022 revealed significant concerns about certain qualifications. These integrity concerns were present in all the calendar years analysed from 2022-2025.
7. Your qualification(s) and/or statement(s) of attainment were issued during this period.
8. On the basis of these findings, ASQA issued you a notice of our intent to cancel your qualification(s) and/or statement(s) of attainment. You did not respond to this notice.

Consideration

9. The NVR Act is protective in nature, and maintaining public confidence in the integrity of VET qualifications and statements of attainment is critical to meeting that protective object. There is a public interest in ensuring that people who hold a VET qualification or statement of attainment have been properly trained, that there is a minimum standard required to receive a particular qualification, that there is a rigorous assessment process and that there is consistency in those standards across providers.

10. Where students have not been properly trained and assessed, it is in the public interest for issued qualifications and statements of attainment to be cancelled so that consumers, employers and others can safely rely on VET qualifications.
11. Having regard to the findings set out above, I am satisfied it is appropriate to cancel qualifications and statements issued to you by Unique College of Technology during the period 1 June 2022 to 2 September 2025 on the basis that I am satisfied on reasonable grounds that Unique College of Technology did not provide or arrange for another person to provide all or part of the assessment necessary during that period for you to achieve the learning outcomes or competencies required for the following qualification(s) and unit(s) of competency (see Annexure A for Qualifications and Statements of Attainment).
12. Where there are reasonable grounds to cancel a qualification or statement of attainment, the NVR Act provides a discretion to not do so. I am satisfied that, at this point in time, there are no extenuating circumstances supporting the ongoing validity of the qualification(s) and/or statement(s) of attainment.
13. On this basis I have decided to cancel your qualification(s) and/or statement(s) of attainment.
