ASQA, the national VET regulator, has taken these decisions following regulatory scrutiny of each training provider. ASQA contends that the providers have not operated consistently with the requirements of the VET Quality Framework, which is a condition of registration.

### Review rights

Training providers subject to an adverse regulatory decision have the right to have the decision reviewed. A provider may, in certain circumstances, apply to have ASQA reconsider its decision. Where available, providers can apply to the Administrative Appeals Tribunal (AAT) to have ASQA's decision reviewed. More information about review options is available on the [ASQA website](#).

During a review or reconsideration process, the provider may seek a stay of the decision or an extension of the date the decision takes effect, which permits the provider to continue to operate until the review process is finalised. The [ASQA website](#) contains up-to-date information on the status of any review processes. It is advisable to check the website to obtain current information concerning the status of regulatory decisions.
