## Preliminary information

The Australian Skills Quality Authority's (ASQA's) fees are determined by way of legislative instrument registered in the Federal Register of Legislative Instruments. ASQA's current fees are determined by the [Australian Skills Quality Authority Instrument Fixing Fees No.1 of 2013](#) (the 2013 Instrument). The legislative instrument is made under subsections 232(1) and 232(5) of the *National Vocational Education and Training Regulator Act 2011*.

ASQA's previous fees were determined by the *Australian Skills Quality Authority instrument fixing fees No. 1 of 2011* (the 2011 Instrument).

Registration applications lodged before the commencement of the 2013 Instrument are subject to the fees determined under the 2011 Instrument.

It should apply through ASQA's Change to Scope of CRICOS registration process.

<p><b>Application lodgement fee</b></p> <p>for re-registration under the ESOS Act – where the applicant applies to ASQA for re-registration on CRICOS</p> <p><i>Plus</i></p> <p><b>Application assessment fee</b></p> <p>for application for CRICOS re-registration – where the applicant has applied to ASQA to be re-registered on CRICOS</p>	<p>Per application</p> <p>Base fee includes:</p> <ul style="list-style-type: none"> <li>• Up to 4 qualifications</li> <li>• Up to 2 delivery sites</li> </ul> <p>Plus:</p> <hr/> <ul style="list-style-type: none"> <li>• each additional qualification</li> </ul> <hr/> <ul style="list-style-type: none"> <li>• each additional Australian delivery site</li> </ul>	<p>\$1,050</p> <p>\$7,000</p> <p>\$155</p> <p>\$820</p>	<ul style="list-style-type: none"> <li>• Paid on application</li> <li>• May be refunded if ASQA has not commenced work on the application</li> </ul> <ul style="list-style-type: none"> <li>• Paid on application</li> <li>• May be refunded if ASQA has not commenced assessment of the application</li> <li>• Total application fee (including lodgement and assessment) capped at \$50,000</li> </ul>

### Notes:

- For details of what qualifications are included, refer to point 1 of Schedule B.
- Fees in this section apply for renewal of CRICOS registration of courses for which ASQA is the relevant ESOS agency only. An organisation that seeks to renew its CRICOS registration for courses for which ASQA is **not** the relevant ESOS agency (e.g. Higher education, Schools), may also have to apply and pay a fee to other ESOS agencies.

## 2.3 Change to scope of CRICOS registration

Fee	Fee structure	Amount	Other matters
<b>Add qualifications<sup>1</sup>, increase overall student capacity<sup>2</sup>, or add/change sites<sup>3</sup></b>			
From 1 July 2014 ASQA will automatically add equivalent training package qualifications to a provider's scope without requiring an application. This exempts providers from applications and fees to add these items to their scope of registration. This exemption applies for the twelve month period following an item being superseded, while the superseded item remains listed on the RTO's scope on the national register.			
<b>Application fee</b>	Add 1 qualification	\$1,400	<ul style="list-style-type: none"> <li>• Paid on application</li> <li>• May be refunded if ASQA has not commenced work on the application</li> </ul>
	Plus	\$150 per each additional qualification to be added	
	Additional student capacity and/or one additional (or replacement) delivery site,	\$1,640 per application	
	Plus: Each additional (or replacement) delivery site	\$820 per site	
<b>Change course duration</b>			
Since 1 October 2014, fees have not applied for an application to either lengthen or shorten the published duration of an existing CRICOS course registration, as a course may now only be registered once for each provider. An application to change a published course duration is still required, however it incurs no fee.			
<b>Application fee</b>	Change to course duration	Nil.	<ul style="list-style-type: none"> <li>• Use the change of scope application form</li> </ul>
	Change mode of delivery	Nil	
	Change student tuition fees	Nil	
<b>Remove items from scope of registration</b>			
<b>No fee applies</b>		Application is free	

### Notes:

<sup>1</sup> The same fee rate applies regardless of whether the course to be added is new to the provider's scope or is either:  
 - for Training Package qualifications: a non-equivalent replacement version of a course already on the provider's scope; or  
 - for Accredited Courses: a replacement version of a course that is already on the provider's scope.

<sup>2</sup> Fee applies for application to increase overall student capacity for enrolments in courses across all education sectors, whether ASQA is the relevant ESOS agency or not.

<sup>3</sup> A new site is a location where the provider is not currently registered to deliver any course for any education sector to overseas students. For instance, a location where a provider is registered to deliver a higher education course, but now seeks to deliver a VET course, is not a new location.

## 2.4 Annual CRICOS registration

Fee	Fee structure	Amount	Other matters
Annual registration fee	Up to 2 qualifications	\$950	• Paid on invoice
	3–4 qualifications	\$1,645	
	5–50 qualifications	\$4,375	
	51 or more qualifications	\$7,100	

**\*Notes:**

1. All courses with a 'registered' status for which ASQA is the relevant ESOS agency contribute to the calculation of annual CRICOS registration fees, except that:

- ASQA counts each course only once, and
- Equivalent training package qualifications are counted as being the same course.

## Schedule B: Matters relating to the payment of the fees listed in Schedule A

### 1. When fees apply to superseded training package scope items

From 1 July 2015, for the purposes of calculating RTO and CRICOS annual registration fees and renewal of registration fees, a superseded training package product (qualification or unit of competency) and its equivalent replacement training package product will be counted as a single item on a provider's scope of registration. Where training package products are determined to be not equivalent, the superseded and non-equivalent replacement product are counted as separate items. Training package product equivalence or non-equivalence is determined by the Industry Skills Council that develops the training package.

In other words, ASQA's fees apply to all training package scope items (i.e. qualifications and units of competency) that have a status of either 'active' or 'superseded non-equivalent'. 'Active' items are the most recent version of a Training Package qualification or unit of competency. Items that have a status of 'superseded-equivalent' are included in the count only when the superseding item is not also listed on the provider's scope of registration.

Note: The count of 'qualifications' for ASQA's annual fees and renewal fees includes each unexpired accredited course on the scope of registration.

### 2. Annual registration fee

- (a) Except for the 2013-14 financial year, the annual registration fees (as set out in Schedule A) are payable on 1 July each financial year for that year of registration.
- (b) With respect to the 2013-14 financial year, the annual registration fee (as set out in Schedule A) is payable on 1 September 2013 for that financial year of registration.
- (c) Where a NVR registered training organisation or registered provider's registration ends during a billing period (i.e. registration is withdrawn, cancelled, or expired due to non-renewal), only a pro-rata fee applies for the number of whole months of registration. Any excess fee that has been paid is refundable.
- (d) Calculation of the annual CRICOS registration fee for a registered provider is based on the number of courses listed on CRICOS for that provider, which is taken to represent an accurate count of the number of qualifications registered on a registered provider's scope.
- (e) For RTOs that become NVR registered training organisations for the first time (i.e. are not renewing their registration), the first annual registration fee under paragraph 18(c)(iv) of the Act will be calculated pro-rata based on the registration commencement date and 30 June of the following year as determined by the following formula:

$$A \times B / 12$$

Where:

- “A” is the amount of annual registration fee (as set out in Schedule A);and
- “B” is the number of complete months that remain up to 30 June after the RTO becomes registered as an NVR registered training organisation.

- (f) For existing NVR registered training organisations and registered providers at the time of commencement of this instrument, in the financial year 2013-14, the annual registration fee under paragraph 18(c)(iv) of the Act will be calculated pro-rata based on the commencement of this instrument and 30 June 2014 as determined by the following formula:

$$A \times B / 12$$

Where:

- “A” is the amount of annual registration fee (as set out in Schedule A);and
- “B” is the number of complete months that remain up to 30 June after the commencement of this legislative instrument.

- (g) This fee must be paid upon invoice.
- (h) During any period of complete months in which there are registration annual fees payable under both the Act and the *National Vocational Education and Training Regulator (Transitional Provisions) Act 2011*, only the higher fee rate applies. In practice, when an ASQA annual fee is due to be billed, the fee is offset by that part of a previously invoiced legacy annual fee for the period in which both fees apply.

### **3. Refund of application / assessment fees**

- (a) A person who has paid an application fee is entitled to a refund of the amount paid if, before ASQA has commenced work on the application, the person notifies ASQA in writing that they wish to withdraw their application and ASQA has received the notification.
- (b) If a person reduces the scope of a registration application after having paid the application assessment fee and prior to ASQA commencing work on assessing the application, and if the reduced application is subject to a lower assessment fee, the person is entitled to a refund for the difference between the fee paid and the lower fee.
- (c) A person who has paid a fee in relation to the assessment of an application is entitled to a refund of the amount paid if, before ASQA has commenced assessment of the application, the person notifies ASQA in writing that they wish to withdraw their application and ASQA has received the notification.
- (d) If ASQA has not received written notification in accordance with subsection 3 (a), (b), or (c) of this section, the person shall not be entitled to a refund / reduction of the relevant fee(s).
- (e) A person who has paid the fee in relation to an application under paragraph 200(3)(c) of the Act is entitled to a refund of the amount paid if ASQA does not

consider the application because the application does not relate to a reviewable decision within the meaning of section 199 of the Act.

- (f) A fee is not refundable if an application is determined but rejected by ASQA.

#### **4. Off-set of fees**

The amount of any refund a person would otherwise be entitled to may be reduced by any other amount which the person owes to ASQA.

#### **5. Waiver of a fee**

- (a) If ASQA has delegated particular function(s) specified in subsections 224(2), 225(1) and 226(1) of the Act, the fees prescribed in Schedule A are waived in relation to functions which are performed under the delegation.
- (b) When an NVR registered training organisation applies simultaneously for a change of scope of registration for both registrations (RTO and CRICOS), for the same qualifications, ASQA will apply a single application fee, which will be the higher of the two.
- (c) When a registered provider applies simultaneously for one or more additional delivery sites and an increase in its approved CRICOS student capacity, only the delivery site fees are payable.
- (d) If an RTO or a NVR registered provider has paid its annual registration fees as a condition of registration (under State law) and the annual registration fees included an amount to pre-pay the next renewal of registration fee, the ASQA application assessment fee specified at 1.2 and 2.2 in Schedule A will not apply for the RTO's first renewal of registration with ASQA. This provision exempts ex-VETAB providers from ASQA's renewal of registration assessment fee on the provider's first renewal application to be assessed by ASQA. The first renewal includes applications lodged with VETAB and finalised by ASQA.
- (e) A fee that would otherwise be payable under the Act or the ESOS Act may be waived, in whole or in part where, in ASQA's opinion:
  - (i) special or unusual circumstances exist which would cause the fee to be unreasonable or inequitable; or
  - (ii) the amount of the fees that remain unpaid is so small that its recovery would be uneconomical to pursue.
- (f) The following circumstance does not constitute grounds for granting a waiver:
  - (i) where the person required to pay the fee ceases to exist, or ceases to be registered, or ceases to carry on business as a RTO or CRICOS provider.

## 5. Legacy annual registration fees

In accordance with the *National Vocational Education and Training Regulator Transitional Provisions Act 2011* (the Transitional Provisions Act), providers that transitioned to ASQA from a state or territory regulator remain subject to the relevant state or territory annual registration fee (referred to as a 'legacy annual fee') for the remainder of their current registration—that is, the registration that the former regulator approved.

ASQA will invoice providers annually for the collection of legacy annual fees. The former regulator's fee continues to apply until the provider renews their registration with ASQA.

Section 5(1) of the Transitional Provisions Act requires that the legacy annual fee be charged on the same basis as applied by the previous regulator, this means:

- based on the same rates and methodology, which includes charging for a twelve month period
- subject to CPI increases each July
- due at the same time as they were due under the provider's previous regulator, subject to ASQA issuing an invoice.

After ASQA renews a providers' registration, ASQA's annual registration fee applies. In the year of registration expiry, this may result in an overlap of ASQA and legacy fees for ex-New South Wales and ex-Queensland providers. Where this occurs, only the higher fee applies for the complete months of overlapping fees.

Providers that transferred to ASQA from either the Western Australia or Victorian state regulator after ASQA's commencement (by increasing scope of registration after 30 June 2011 to enable delivery of VET in states and/or territories under ASQA's jurisdiction or delivery of training to international students) are not subject to legacy annual registration fees under the Transitional Provisions Act. These providers are subject to ASQA's full schedule of fees and charges.
